What is 3v3?

3v3 means three players versus three players. This is a small-sided version of soccer played on a small field with each team having only 3 players on the field at a time. There are no goalkeepers and instead of throw-ins, the players simply put the ball back into play with a kick-in. Each goal is guarded by a goal 'box' - an area meant to discourage guarding the goal (goal tending).

Why play 3v3?

3v3 is an awesome format that focuses on individual skills and the interaction between players in a close proximity. The format increases the number of 'ball touches' each player receives. This is the critical factor that helps players develop and makes this small-sided game so important for player development.
